Contents

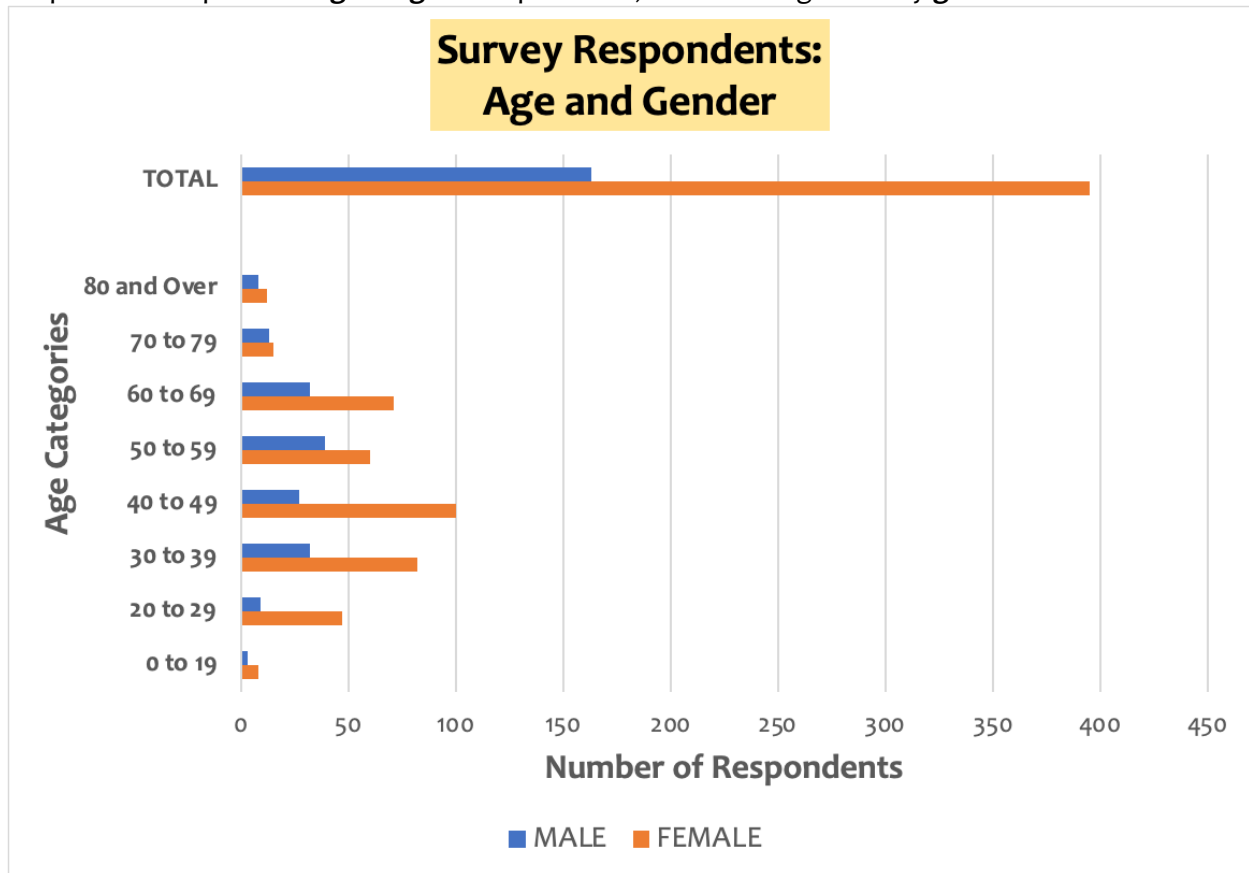

I. Demographics	2
II. Disability, Military and Insurance Status	6
III. Health Concerns and Barriers	9
IV. COVID Response	12

Data submitted by Aravind R. Menon, PhD, MPH, MBBS

I. Demographics

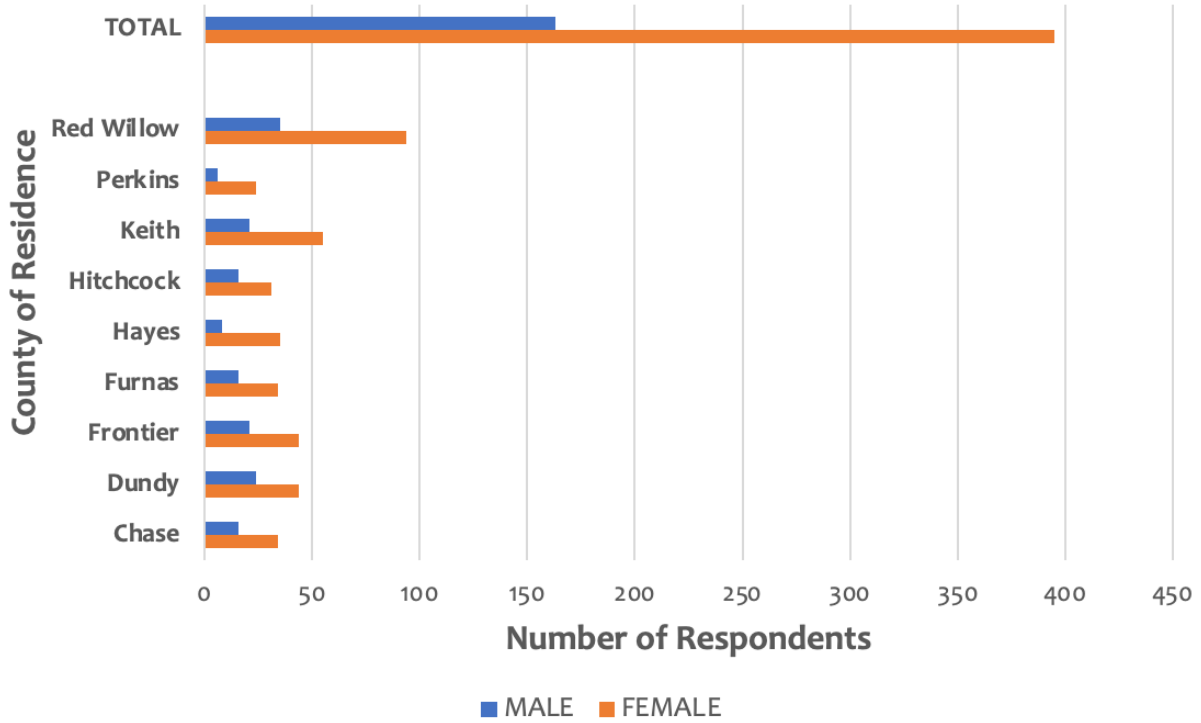

- County
- Gender
- Race
- Ethnicity
- Age Range

Graph below depicts the age range of respondents, further categorized by gender.

Graph below depicts the county of residence of respondents, further categorized by gender.

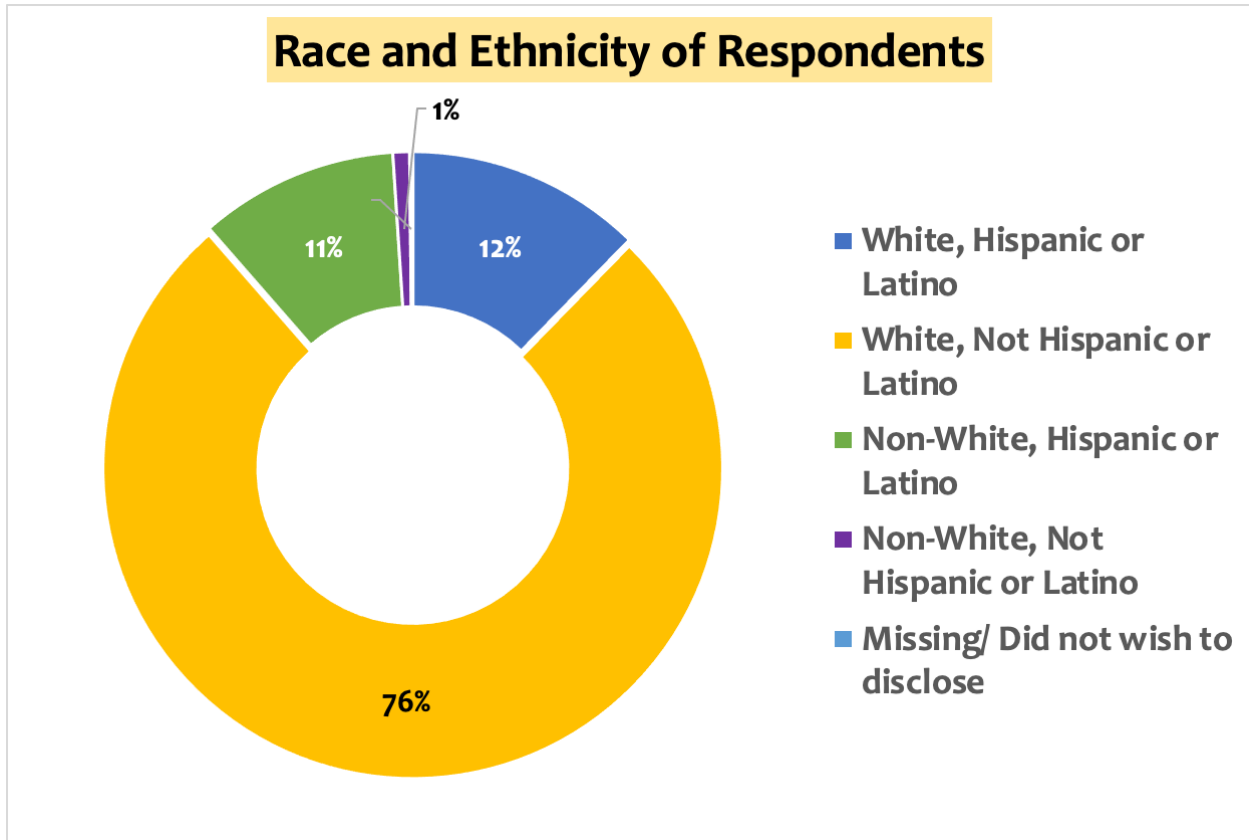

Survey Respondents: County of Residence and Gender

Graph numbers in table form. Although a **total of 577 responses** were recorded (see table of race/ethnicity on page 4) alone , when considering the total persons who had answered all demographic background questions completely (age AND gender AND county AND race/ethnicity), the **total was only 558**. (see below)

	FEMALE	MALE	TOTAL
Chase	34	16	50
Dundy	44	24	68
Frontier	44	21	65
Furnas	34	16	50
Hayes	35	8	43
Hitchcock	31	16	47
Keith	55	21	76
Perkins	24	6	30
Red Willow	94	35	129
TOTAL	395	163	558
	FEMALE	MALE	TOTAL
0 to 19	8	3	11
20 to 29	47	9	56
30 to 39	82	32	114
40 to 49	100	27	127
50 to 59	60	39	99
60 to 69	71	32	103
70 to 79	15	13	28
80 and Over	12	8	20
TOTAL	395	163	558

Graph below depicts the **race and ethnicity** of respondents.

	Number	%
White, Hispanic or Latino	71	12.31%
White, Not Hispanic or Latino	440	76.26%
Non-White, Hispanic or Latino	60	10.4%
Non-White, Not Hispanic or Latino	5	0.87%
Missing/ Did not wish to disclose	1	0.17%
TOTAL	577	100%

II. Disability, Military and Insurance Status

Graph below describes the responses to the questions:

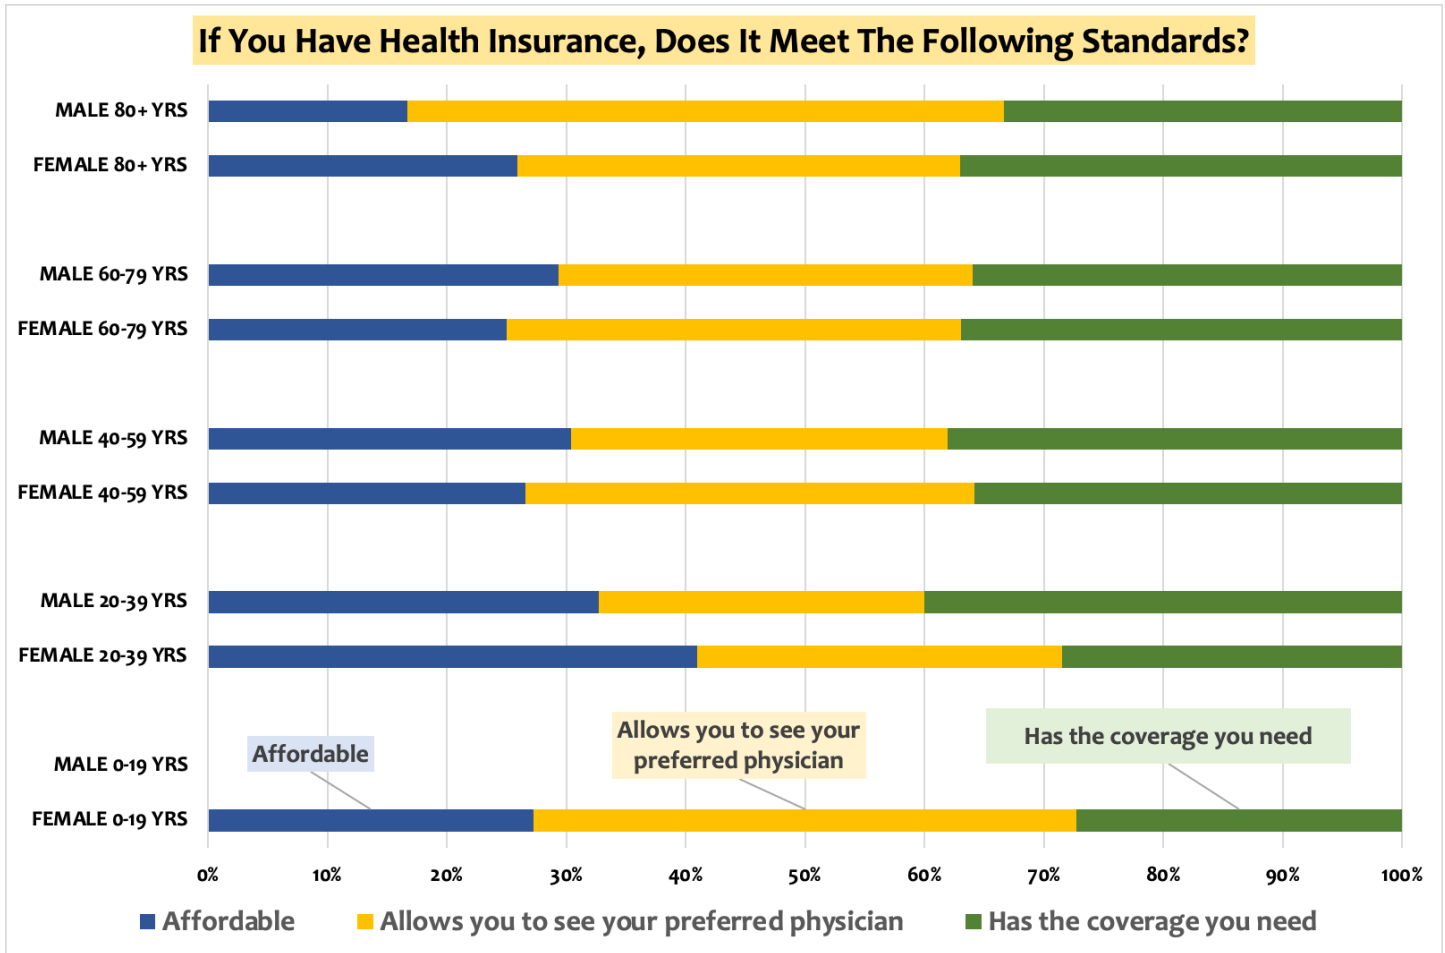

- Do you, or anyone in your family have a disability?
- Have you or anyone in your family ever served in the military?
- Do you currently have health insurance?

Responses are yes/ no, and they have been further disaggregated as male/ female.

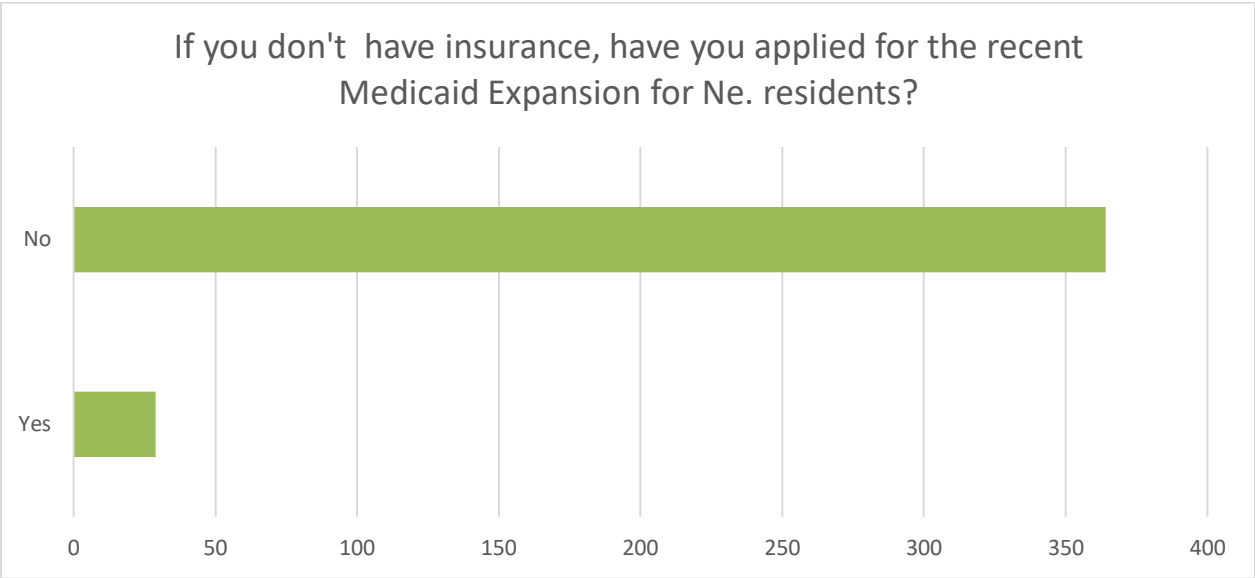

If you have health insurance, does it meet the following standards?

- Affordable
- Allows you to see your preferred physicians
- Have the coverage you need
- Other

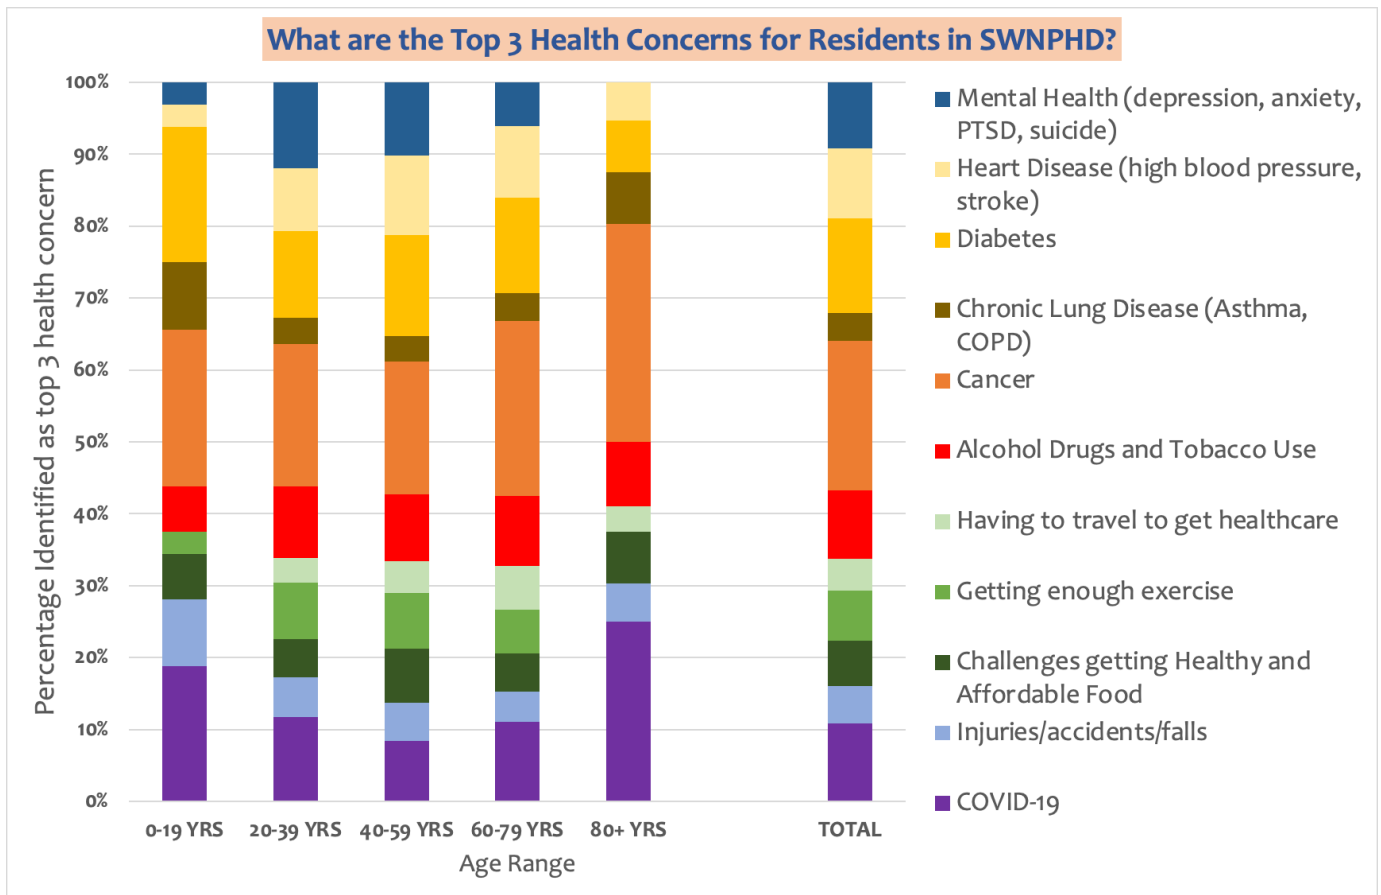

Graph describes the cumulative percentages of all responses regarding the minimum standards met by the health insurance that were mentioned by respondents. Only persons who already had health insurance answered this question. Multiple responses were recorded.

Data is presented as proportions, further disaggregated by **age (20-year categories) & by gender**. Each of the information sources is noted in the legend and in a callout box.

III. Health Concerns and Barriers

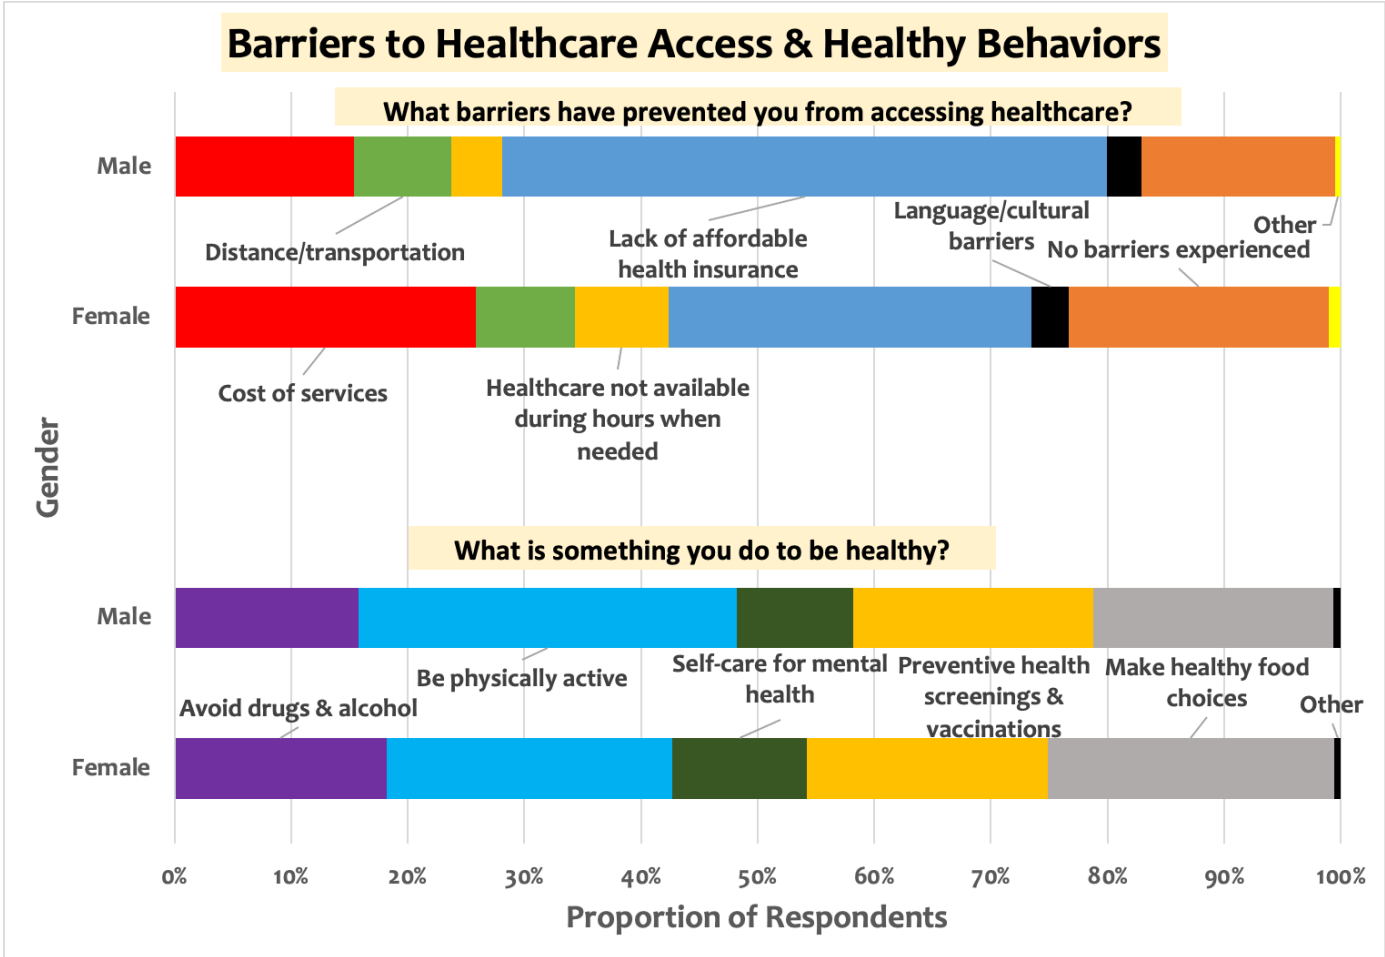

Graph describes the cumulative percentages of all mentions of a health problem among the respondents' list of top 3 health problems facing people in the district. So, if alcohol was number 1 for one person and third for another, they are both given the same weight.

Data is presented as proportions, further disaggregated by age (20 year categories)

What worries you most about your health or the health of your family?

- DENTAL CARE
- NOT WORRIED ABOUT ANYTHING RIGHT NOW, WE HAVE BETTER CONTROL OF OUR ILLNESSES.
- WORRIED ABOUT GOING TO THR HOSPITAL AND NOONE THERE THAT WILL BE ABLE TO ASSIST ME IN SPANISH.
- HAVING A TERMINAL ILLNESS LIKE CANCER AND NOT ABLE TO PAY FOR THE CARE NEEDED. MEDICAL CARE IS VERY EXPENSIVE.
- NOT ABLE TO RECIEVE MEDICAL CARE DUE TO NOT HAVING A SS# OR INSURANCE.
- NOT BEING KNOWN OF PATIENTS RIGHTS AND THE PROPER INFORMATION TO CARE.

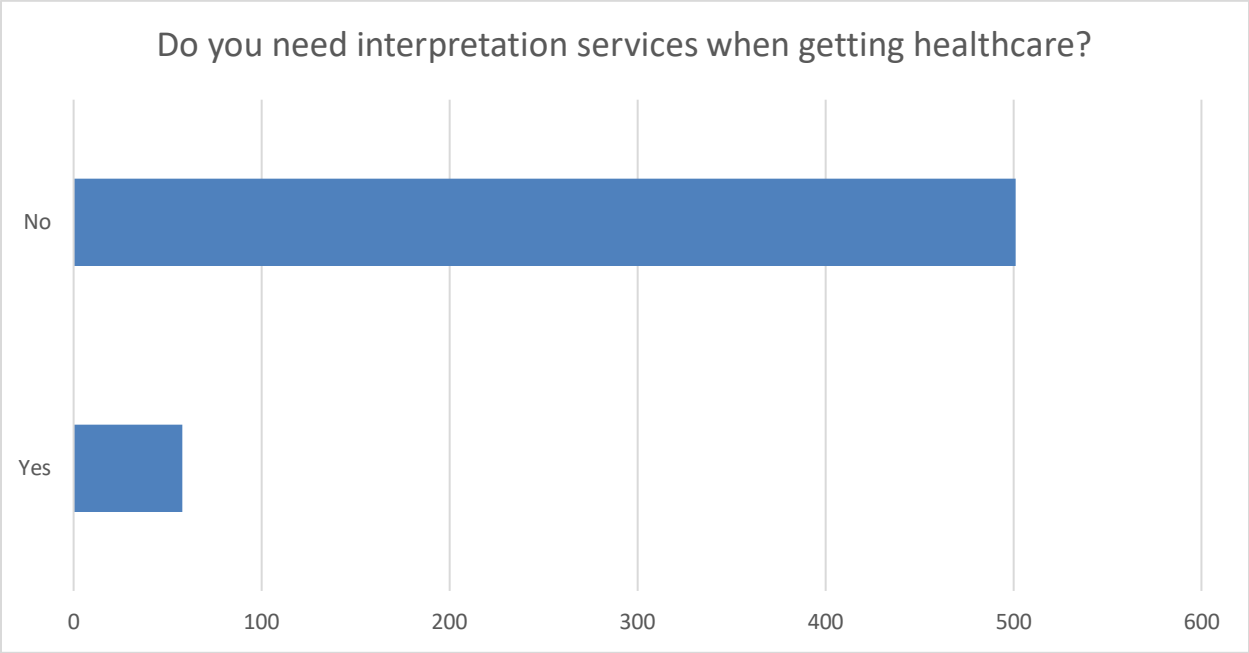

Graph describes the cumulative percentages of all mentions of access issues by respondents. Similarly, the cumulative number of mentions of healthy habits by all respondents is represented.

Data is presented as proportions, further disaggregated by gender. Each of the options is noted instead of a legend.

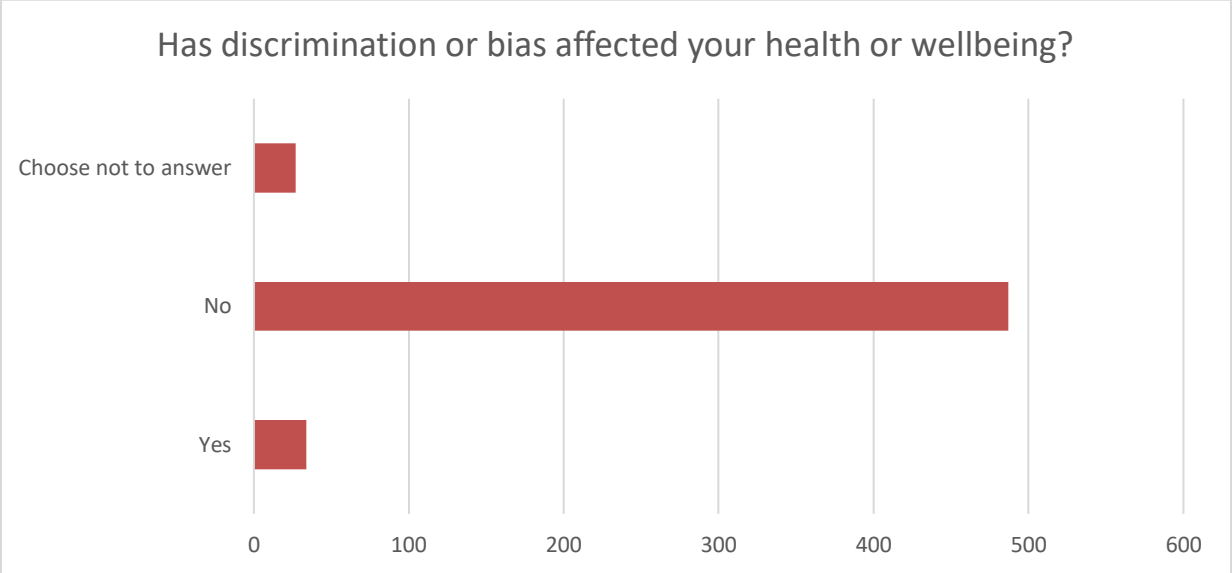

What would make your neighborhood a healthier place for you or your family?

- MORE ACTIVIES FOR CHILDREN TO BE MORE ACTIVE, SPORTEES, FAMILY ACTIVIES
- BEING MORE ACTIVE AND WALKPATHS
- BEING ABLE TO HAVE BLOODWORK DONE EASILY WITHOUT WORRING HOW I'M GOING TO PAY FOR IT.
- HAVING ACCESS TO MEDICAL CARE AT ANY TIME
- BEING INFORMED ABOUT THE PROPER RULES AND LAWS

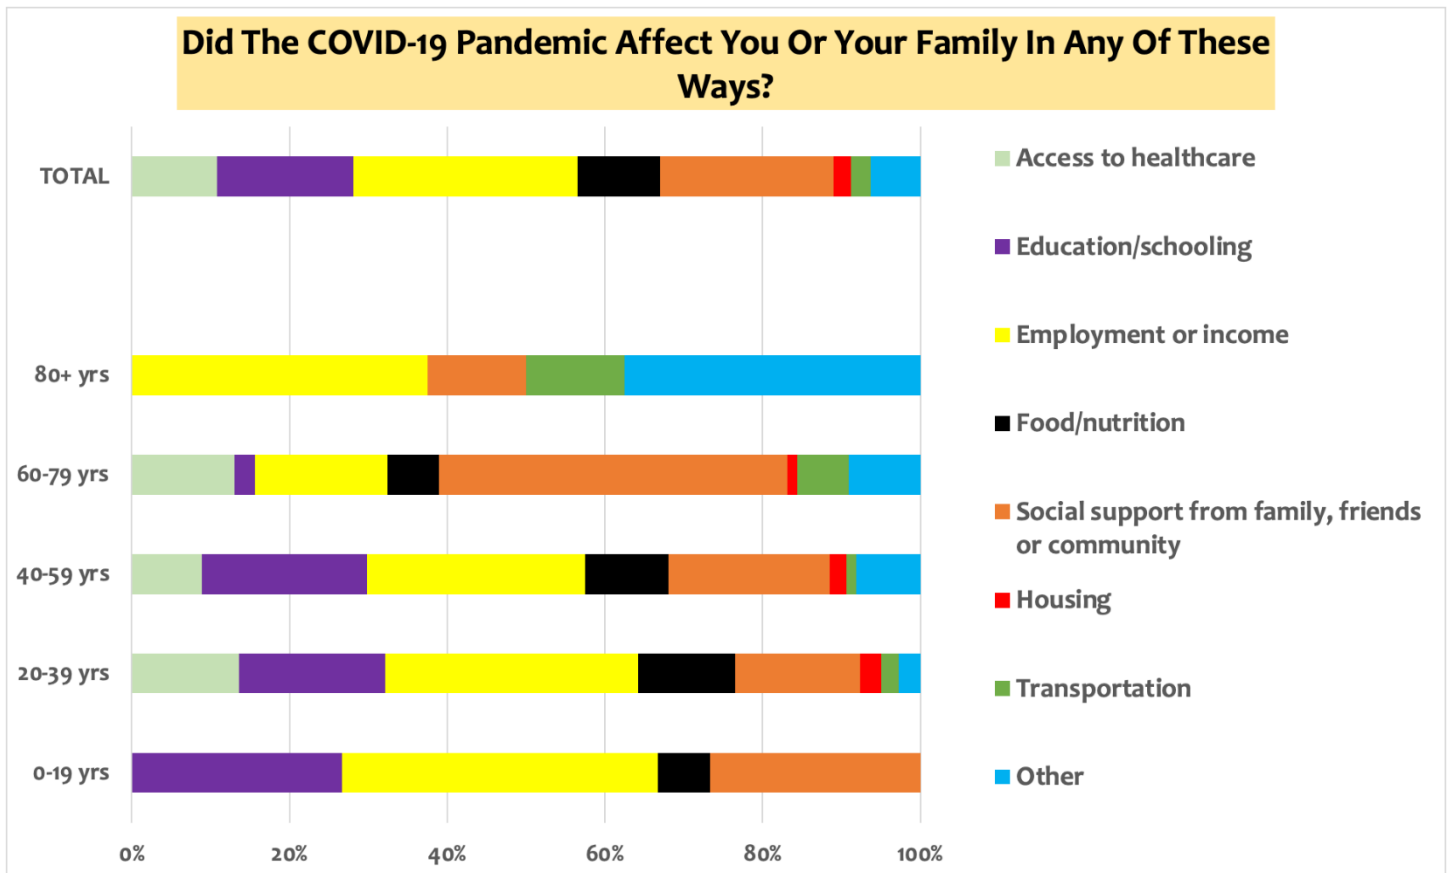

If yes, how do you currently get interpretation now?

- CALLPHONE APP
- THERE ARE NO INTERPRETERS. FRIENDS

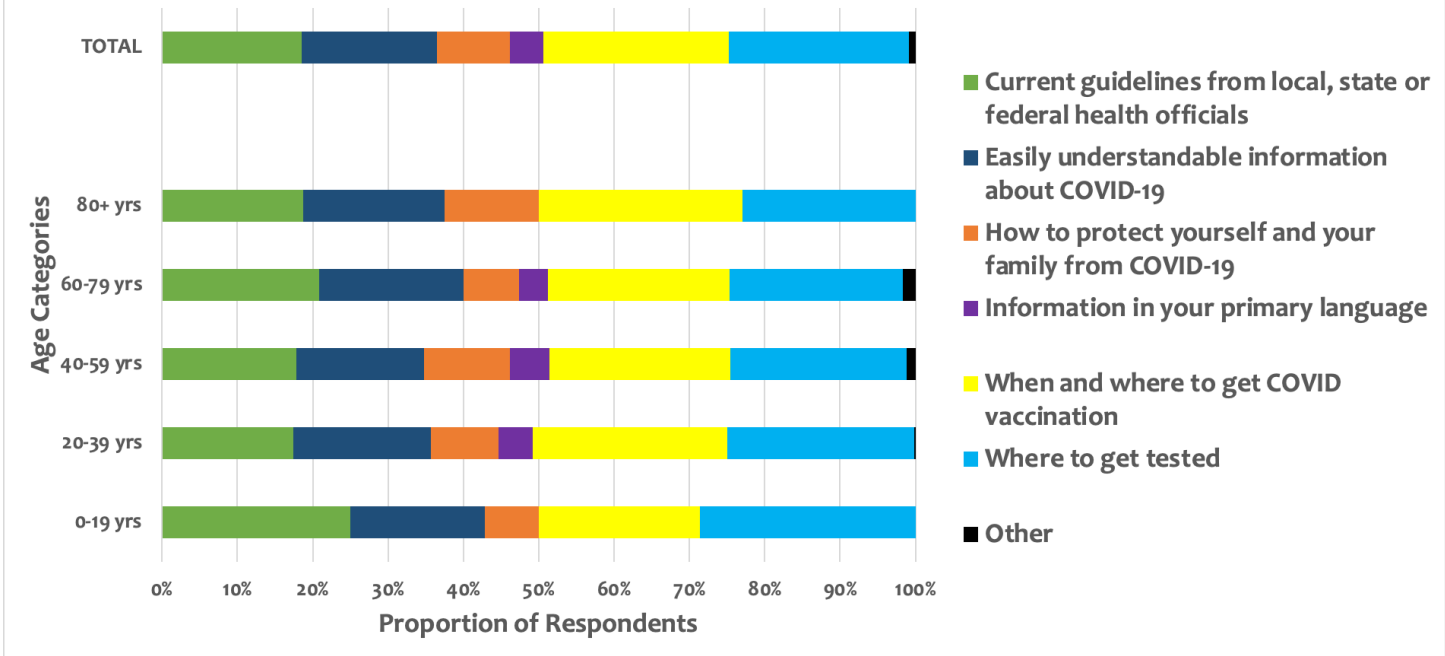

IV. COVID Response

Graph describes the cumulative percentages of all mentions of a COVID related issue by respondents. Multiple responses were recorded. Total is noted separately. ‘Other’ included “none”, “stress”, “masking”, “volunteering”, and one respondent who complained of “discrimination” because he “refused to take the vaccine”.

Data is presented as proportions, further disaggregated by age (20-year categories). Each of the impacts is noted in the legend.

**Resources accessed during COVID-19 pandemic:
Which of these information sources were available to you?**

Graph describes the cumulative percentages of all pandemic related information sources mentioned by respondents. Multiple responses were recorded. ‘Other’ numbered only 13 responses, and included “sick of the propaganda”, “booster sites”, “how about the truth”, “election infection is a hoax”, and “no problems”

Data is presented as proportions, further disaggregated by age (20-year categories). Each of the information sources is noted in the legend.
